#709/1 , ground floor , 4th cross golf course road , kodihalli, banglore, karnataka, 560008, india | 9945963112

Third-year CSE student (CGPA 7.5) specializing in Java backend and full-stack development. Proficient in Java, React, MongoDB, AWS fundamentals, and Git. Strong communicator with public speaking skills, actively seeking Java/backend internships to apply and enhance technical expertise.

Work Experience

intern

Jul 2025 - Jul 2025

[Vault of Codes](#) | Remote

Completed a 1-month internship focused on developing scalable Java-based backend services using databases like MongoDB and SQL. Gained hands-on experience building RESTful APIs and explored various Spring framework features, enhancing backend development skills and practical knowledge.

Projects

Ask Lord Krishna

Jul 2025 - Aug 2025

Developed an AI-powered spiritual chatbot simulating Lord Krishna's conversational style using Gemini API. Built with Java, React, MongoDB, RESTful APIs, and Spring framework. Combines AI and full-stack technologies to deliver scalable, responsive, and accessible spiritual teachings.

Movie Booking and theater management system

Jun 2025 - Jun 2025

Developed a comprehensive movie booking and theater management system using Java, React, and MongoDB. Implemented RESTful APIs and utilized Spring framework features to create a scalable, efficient full-stack application that streamlines ticket booking and theater operations management.

Vinland Wanderlens

May 2025 - May 2025

Developed a photography portfolio website using React, HTML and CSS. Designed a user-friendly, responsive interface showcasing visual content like my best photos. Deployed on a free hosting site for the world to see.

Cosmo-Discover

Aug 2025 - Aug 2025

Developed a space information website using React, HTML, and CSS, integrating NASA APIs to fetch and display real-time cosmic data. Designed a user-friendly, responsive interface to deliver engaging and accessible space exploration content with efficient frontend technology.

Core Skills

Java, MongoDB, HTML, CSS, React, Problem solving, python, SQL, Critical thinking, Git-github, Communication, Api development

Education

Languages

English (*fluent*), Hindi (*speaking*), kannada (*fluent*)
